Steppe Cement Ltd
Interim Results for the Half Year Ended 30 June 2008
and General Market Update

1. Interim Results

Steppe Cement Ltd ("Steppe Cement") is pleased to announce a consolidated profit after tax for the six months ended 30 June 2008 of US\$14.6 million.

Steppe Cement's operating results are summarized below:

	6 months ended 30 June 08	6 months ended 30 June 07	Inc/ (Dec) %
Sales (tonnes)	412,042	382,080	8%
Consolidated turnover (US\$ Million)	52.3	38.7	35%
Consolidated profit after tax (US\$ Million)	14.6	10.6	38%
Earnings per share (Cents)	12.8	9.3	38%
Exchange rate (USD/KZT)	120.5	123.1	

Steppe Cement's net profit has increased by 38% compared to the corresponding period in 2007. At the operational level, sales grew by 32% in Tenge and volumes have increased by 8%. Average sales price rose to US\$126/ton during the period compared to US\$101/ton achieved in the corresponding period last year.

Production costs have increased by 19% on line with Kazakhstan inflation and mainly due to rising costs of utilities, coal, transportation, oil and labor. These cost increases will be balanced in the coming months as the dry lines are progressively brought into production.

The pace of investment has accelerated over the last 6 months after we cleared the remaining imported goods from customs. Investment in plant and equipment during the first six months was US\$ 54 million.

2. Update on the Kazakh Cement Market

The Kazakhstan cement market decreased by 15% during the first half of the year. The imports' share of the market has gone down from 44% to 33% of the total while local production was stable with the exception of the temporary stoppage of the factory in Shimkent.

Steppe Cement expects an overall decrease of 20% in the market for the whole of 2008 as the summer months in 2007 witnessed a peak in consumption fuelled by the availability of credit then. The monthly consumption pattern is reverting to the trend of 2005 and 2006.

The average price per tonne in the first half has increased significantly compared to 2007 but we expect lower prices during the second half of 2008. Consumption is expected to stabilise during the summer 2008.

The deficit in the market will continue, at least until Steppe Cement commissions its second line. The credit tightening in the world markets still affects the availability of funds for the construction sector in Kazakhstan, on the other hand the government has pledged to maintain its

support for housing and infrastructure investment.

3. Refurbishment progress

The refurbishment project for dry line 6 is now completed and commissioning began in June. All motors and electrical systems have been tested. The kiln will be fired in the coming days. The line 6 is currently operated by 155 employees with the support of the 30 foreign specialists

Most of the imported materials for line 5 are on site or will be delivered by November 2008. Over the last three months, we experienced problems with the quality of locally manufactured steel and the delivery of structural materials as two of the sub contractors defaulted on their obligations and we had to re tender their work. This will cause a delay in commissioning of line 5 until the summer of 2009.

The new chain system for two kilns in the wet lines arrived in May but the installation has been postponed until October 2008 to maximize production during the summer months. Their existing capacity is 850,000 tons in a full year of operation. Cement mill number 7 is working as planned and cement mill number 6 will be started before the end of 2008.

4. Financing

The cash flow was applied to the refurbishment program and the same policy will apply to the second half of the year. The USD 42 m. loan of EBRD has been completely drawn down as of June 2008. Kazkommertz Bank loan of \$23.2 m. is in the process of being refinanced by HSBC Bank Kazakhstan enabling the company to save substantially in interest payments.

A pdf copy of the announcement and the interim financial statements is available on the company's website at www.steppecement.com.

Steppe Cement's AIM nominated adviser is RFC Corporate Finance Ltd. Contact Stephen Allen +61 8 94802500.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PREPARATION OF CONDENSED INTERIM FINANCIAL STATEMENTS

Basis of presentation

The condensed interim financial statements of the Group and the Company are unaudited and have been prepared in accordance with International Financial Reporting Standards ("IFRS").

The condensed interim financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the audited financial statements for the year ended 31 December 2007. The condensed interim financial statements were authorised for issue by the Board of Directors on 4 September 2008.

Use of estimates and assumptions

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Due to the inherent uncertainty in making those estimates, actual results reported in future periods could differ from such estimates.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Group and the Company have been prepared under the historical cost convention.

The accounting policies adopted are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2007.

The principal closing rates used in translation of foreign currency amounts are as follows:

	USD
1 Sterling Pound	1.9923

1 Ringgit Malaysia	0.3061
1 Euro Dollar	1.5755
1 Kazakhstan Tenge	0.0083
	KZT
1 US Dollar	120.765

3. REVIEW OF RESULTS FOR THE PERIOD

During the 6 months period ended 30 June 2008, Group's revenue increased by 35% to USD52.3 Million from USD38.6 Million in the preceding year's corresponding period. The increase in revenue is attributable to the increase in sales volume by 8% and higher average sales price of USD126 per ton during the period compared with USD101 per ton in the corresponding period. The Group's profit before and after taxation rose by 36 and 38% to USD21.1 and USD14.6 Million from USD15.6 and USD10.6 Million respectively in the preceding year corresponding period.

4. SEGMENTAL REPORTING

No industry and geographical segmental reporting are presented as the Group's primary business is in the production and sale of cement which is located in the Republic of Kazakhstan.

5. REVENUE

	The Group		The Company	
	6 months ended		6 months ended	
	30.6.08	30.6.07	30.6.08	30.6.07

Other receivables comprise mainly of VAT reimbursable and others. VAT reimbursable are value added tax credits arising from purchase of materials, property, plant and equipment and repair and maintenance services by Karcement JSC in relation to its cement lines refurbishment project. Others include custom duties levied on the import of property, plant and equipment for the refurbishment project.

Advances paid are mainly those advances incurred by subsidiaries for the purchase of machinery, equipment and

construction work for the refurbishment of cement plant. Short-term advances are those incurred for the purchase of materials and other services by subsidiaries for cement production. Included in the short-term advances are reclassification of USD19.9 Million from non-current advances to short-term advances as these advances paid are expected to be utilised within the next twelve months. During the period, advances of USD29.9 Million were utilised for the purchase of property, plant and equipment, materials and other services in the refurbishment project.
